## Who should attend:

### ALMOS, RSLs, Housing Associations, Consultants

The Housing Community comprises organisations that measure their own performance and the performance of their projects and supply chain partners, using both Headline and bespoke performance indicators. The group works closely with Davis Langdon, National Change Agent for improving efficiency in social housing capital works and the National KPI Consortium who are responsible for the Annual Industry benchmarks published each year by Constructing Excellence. The group is working collectively on the key issues affecting the Housing Industry and has created an effective network for sharing experience and best practice, most recently on issues such as Gershon Efficiency savings and resident satisfaction surveys.
